

Literacy for Children in an Information Age: Teaching Reading, Writing, and Thinking, 2007, 576 pages, Vicki Cohen, John Cowen, 0534611192, 9780534611194, Cengage Learning, 2007

LITERACY FOR CHILDREN IN AN INFORMATION AGE was developed in response to the urgent need for a literacy methods book that is relevant in today's information-driven society. Cowen and Cohen present a modern, useful text that defines literacy using technology and meets the changing needs of K-12 instructors, providing practical tips for integrating technology into literacy instruction. As technology has had a profound impact on the nature of K-12 teaching-especially the teaching of reading and writing-some scholars believe that today's digital technologies have changed the meaning of literacy. Similarly, nearly every state has included technology-related competencies in their standards at nearly every grade level. With this in mind, LITERACY FOR CHILDREN IN AN INFORMATION AGE also includes examples of best practices, software packages, and websites. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
